Dear Mr. Beard:

It is with pleasure that I take this opportunity to thank you for your outstanding work in designing and fabricating the historical panels that are now on display around the Athens, Alabama Courthouse Square. These panels are a beautiful tribute to the historical significance of this unique town center. They have attracted much attention and have been the subject of many compliments.

The images and descriptions captured by these panels accurately preserve treasured periods in the evolution of our town. The elegant background of the panels and the attractive composition, enhancement and presentation of the historical photographs make these displays the high point of our Limestone County Antebellum Trail.

We greatly appreciate your diligence, craftsmanship and artistic talent.

Sincerely,

Hugh Ball, President
Greater Limestone County Chamber of Commerce
