WHAT SUNSYNE'S CUSTOMERS SAY

"SunSyne is the gold standard for graphics and durability in the sign business. They aren't the cheapest; but they don't aim to be. Quality first and foremost makes them trustworthy and reliable. We opted to use them nearly ten years ago and when problems arose they were on it, quickly and cost effectively.

The frames last forever, are vandal resistant and attractive. The graphics are computer designed with superb output encased in ultraviolet resistant Lexan plastic. Their map work is awesome! Best of all when a replacement panel is needed the cost is minimal.

We replaced the graphics on ten signs for less than the cost of one sign. If you can afford the best up front, you'll find it is also eventually going to be the most cost effective solution in the long term. They are our exclusive vendor!"

Len Riedel, Executive Director
Blue and Gray Education Society

"...quite often we get comments on how your signs look when compared to some of the other interpretive markers on the battlefield, and your signs consistently come out on top."

Al Preston, Assistant Park Manager
South Mountain State Battlefield

(Click the letter to read more.)

"Thank you for the work you recently completed on interpretive panels at Brice's Crossroads. The appearance of the signs and panels is much improved and the work you performed will keep them durable and attractive for a longer time.

"I appreciate your commitment to this project. Because of your extra effort in choosing of materials, the integrity of the signs will be preserved for many years. Also, thank you for your choice to update and replace the CWPT logo on the panels.

"I appreciate your dedication to a job well done and look forward to working with you again."

Edwina Carpenter, Director
Brice's Crossroads Battlefield and Visitors Center
