## SPECIFICATIONS

The exhibit **PANEL & FRAME** forms a virtually unbreakable, watertight structure resistant to ultraviolet light and vandalism. The **PANEL** is composed of a six-color, UV resistant digital graphic, printed at 1440 dpi and laminated with a tough UV laminate. The graphic is covered with Lexan coated with "Margard" for additional protection against UV light, abrasion and graffiti.

The panel is sealed against moisture with a water-proof double-sided foam tape. The **POST & FRAME**, made of durable steel, is protected with glossy powder-coating or glossy epoxy and Urethane paint. **YOUR CHOICE.** The frame is lined with a neoprene foam gasket for additional protection against moisture. The completed exhibit is shipped ready to attach to the mounting post / plate assembly using theft-resistant nuts.
